Re: Sponsor request EuroBSDcon 2011

Dear madam / sir,

Every year an EuroBSDcon event is organized within one of the European countries. In 2011 the 10th EuroBSDcon will be held in the Netherlands.

The goal of EuroBSDcon is to exchange knowledge about the various BSD Operating Systems. Not only between developers but also with its users. We want to establish a program which will interest everyone working with *BSD. So we hope the program will interest your company and it's employees.

However organizing a conference as EuroBSDcon is a endeavor depending financially on sponsor contributions. So we ask you for a sponsor contribution to make the 10th EuroBSDcon possible.

Please let us know if you are willing to sponsor us. If you want to contribute in any other fashion to make the conference a success or if you have questions, we would be delighted to hear from you. In the attachment you will find a detailed description with the sponsor options and what you will get in return.

More information will follow soon on http://2011.eurobsdcon.org

In any case we would like to welcome employees of your company as visitors of EuroBSDcon 2011.

Yours Sincerely,

Organisation Comitee
EuroBSDcon 2011
